

Helm™

Lumbar support

## BACK TO BASICS

Good design is about simple concepts that are well executed. This was our starting point with Helm; we stripped the task chair back to the basics, instilling Helm with those elements it needed to fit beautifully in the modern workplace, while still performing at the top of its class.

When it came to Helm's good looks, we put our attention on the details. We gave Helm a streamlined, diamond-shaped backrest complete with delicate stitched details. This, combined with the gently curving seat and black frame, gives Helm sleek contours that work perfectly in any space.

One-dimensional armrest

Fixed armrest

## ACTIVE CERTIFICATION

# Simple Perfection

## DESIGN FOR EVERYONE

Charles and Ray Eames once said, "We wanted to make the best for the most for the least." Helm was born from this idea: this new task chair brings great design to the people, delivering performance, versatility and user-friendly style to fast-growing business environments.

Sliding seat

## A STAR PERFORMER

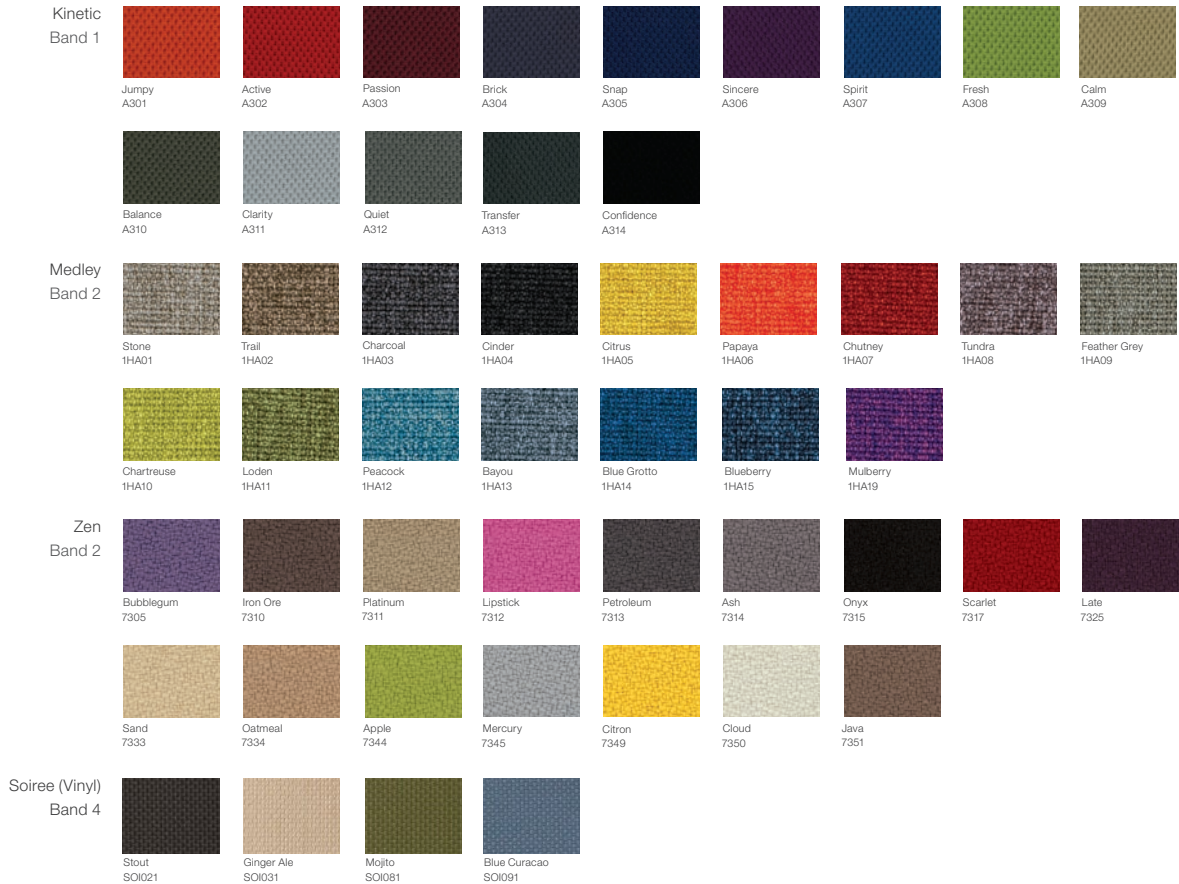

We invite you to get to know Helm, an easygoing task chair that offers a winning combination of functionality and style at a competitive price point. Available in mid- and high-backed versions, with fixed or adjustable armrests, Helm delivers ergonomic comfort in the form of excellent lumbar support and a sliding seat.

Set on casters on a nylon base, Helm is also highly adaptable, moving with businesses as their needs and their space change.

## EXPRESS YOURSELF

We know brands need to express their personality – that’s why we offer a wide variety of upholstery choices with Helm. Choose from textile options that include Medley and Zen; high-quality fabrics that can elevate Helm’s straightforward style while hitting the perfect price point.
