Everywhere™ Tables

Versatile tables for a consistent look  
throughout your workplace

**Everywhere Tables**  
Designed by Dan Grabowski

Even as technology provides the means by which people can exchange and build upon ideas virtually, physical space remains a powerful asset for organisations looking to foster a human connection to work and colleagues. By providing intuitive gathering points where meaningful interactions can take place, tables are a necessary building block for workplaces.

Versatile enough to be used everywhere – hence the name – Everywhere Tables complement any space. From conference tables for formal meeting areas to coffee tables for more informal settings, Everywhere Tables offer boundless flexibility, enabling any activity that requires an inviting and expansive (or compact) surface.

With solutions for any table application, Everywhere Tables can help you achieve a consistent look across your entire office landscape.

## Whatever the Activity, Wherever the Setting

Studying, working, video-conferencing, lunching – any activity that brings people together to engage with their work or one another can be centred around an Everywhere Table. The same kit of parts can be used to create a range of tables with functionality for any need.

Choose from a variety of top shapes and sizes, base styles and heights, and mobility options (including castors or glides) to create tables to your exact specifications.

Use meeting height tables to bring people together for more formal interactions.

Their versatility makes Everywhere Tables a great fit for spaces that change frequently to accommodate different activities.

## Adaptable to Change

With modular and mobile Everywhere Tables, a training room can be set up or rearranged in minutes. Easy-to-use ganging hardware helps keep rows of tables looking neat.

### About Dan Grabowski

A desire to combine his love of art and working with his hands led Detroit native Dan Grabowski to the work of artist and designer Harry Bertoia. “That’s when it clicked for me,” Grabowski says, “the connection between sculpture and industrial design.” After graduating from the College for Creative Studies (as Bertoia had done), Grabowski has worked on a range of design projects, from power tools to infant care products. Collaborating with Herman Miller on Everywhere Tables was an exercise in meticulousness. “To me, a Herman Miller product needs visual continuity in every single detail,” he says.

Dan Grabowski

## Materials

The simplicity of Everywhere Tables lends a sense of cohesion and visual calm throughout a space. Tops and bases can be specified in a variety of finishes to complement any environment. Please speak to your Herman Miller representative for the most current materials offering.

### Everywhere Tables

#### Melamine worksurface finishes

#### Veneer worksurface finishes

#### Leg finishes

## Components

A simple kit of parts can be used to create Everywhere Tables for practically any need.

### Surfaces

### Bases

Castors available on most tables. Overall table height does not change when castors are selected.  
Not all surfaces can be configured with all bases.
